Manufacturer's Recall Notices

Jul-99 Recall #99S20

Shift lever in "park" may not fully engage.

Sep-99 Recall #99B17

Add decal to remind operator to keep the vehicle "on plug"

Replace the steering column insert plate with a revised design

Nov-99 Recall #99M05

1998 vehicles may experience premature battery wear out.

Mar-00 Recall #00B37

The current traction battery in some cases may prematurely trigger the "limited operating strategy" (LOS) eventually leading to reduced module energy and poss. Loss of power. New charging system software has been developed.

Following dependability upgrades will be done contingent on diagnostic testing:

Update/Replace Battery control module

Update/Replace Transaxle Inverter Module

Replace Interface AdapterAssembly Module

Replace Traction Battery Charger

Check Traction Battery Heaters

Shift lever in "park" may not fully engage.

Sep-99 Recall #99B17

Add decal to remind operator to keep the vehicle "on plug"

Replace the steering column insert plate with a revised design

Nov-99 Recall #99M05

1998 vehicles may experience premature battery wear out.

Mar-00 Recall #00B37

The current traction battery in some cases may prematurely trigger the "limited operating strategy" (LOS) eventually leading to reduced module energy and poss. Loss of power. New charging system software has been developed.

Following dependability upgrades will be done contingent on diagnostic testing:

Update/Replace Battery control module

Update/Replace Transaxle Inverter Module

Replace Interface AdapterAssembly Module

Replace Traction Battery Charger

Check Traction Battery Heaters

Manufacturer's Energy Consumption Information

Range: City: 38 kW-hr/100miles Hwy: 43 kW-hr/100miles Efficiency: .405 kW-hr/100miles

Manufacturer's Recall Notices

Jul-99 Recall #99S20

Shift lever in "park" may not fully engage.

Sep-99 Recall #99B17

Add decal to remind operator to keep the vehicle "on plug"

Replace the steering column insert plate with a revised design

Nov-99 Recall #99M05

1998 vehicles may experience premature battery wear out.

Mar-00 Recall #00B37

The current traction battery in some cases may prematurely trigger the "limited operating strategy" (LOS) eventually leading to reduced module energy and poss. Loss of power. New charging system software has been developed.

Following dependability upgrades will be done contingent on diagnostic testing:

Update/Replace Battery control module

Update/Replace Transaxle Inverter Module

Replace Interface AdapterAssembly Module

Replace Traction Battery Charger

Check Traction Battery Heaters
