DEPARTMENT OF ENERGY

10 CFR Part 431

[Docket No. EERE-2013-BT-STD-0006]

RIN: 1904-AC55

Energy Efficiency Program for Commercial and Industrial Equipment: Public Meeting and Availability of the Framework Document for Commercial and Industrial Fans and Blowers

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of public meeting and availability of the Framework Document.

SUMMARY: The U.S. Department of Energy (DOE) is considering energy conservation standards for commercial and industrial fans and blowers. To inform interested parties and to facilitate this process, DOE has prepared a Framework Document that details the analytical approach and scope for this rulemaking and identifies several issues on which DOE is particularly interested in receiving comments. DOE will hold a public meeting to discuss and receive comments on its planned analytical approach and issues it will address in this rulemaking proceeding. DOE welcomes written comments and relevant data from the public on any subject within the scope of this rulemaking. A copy of the Framework Document is available at: http://www1.eere.energy.gov/buildings/appliance_standards/rulemaking.aspx/ruleid/25

DATES: Meeting: DOE will hold a public meeting on February 21, 2013, from 9 a.m. to 4 p.m. in Washington, DC. Additionally, DOE plans to conduct the public meeting via webinar. Registration information, participant instructions, and information about the capabilities available to webinar participants will be published on DOE's website at:

http://www1.eere.energy.gov/buildings/appliance_standards/rulemaking.aspx/ruleid/25

Participants are responsible for ensuring their systems are compatible with the webinar software.

DOE must receive requests to speak at the public meeting before 4:00 p.m., February 13, 2013. DOE must receive an electronic copy of the statement with the name and, if appropriate, the organization of the presenter to be given at the public meeting before 4:00 p.m., February 15, 2013.

Comments: DOE will accept written comments, data, and information regarding the Framework Document before and after the public meeting, but no later than **[INSERT DATE 45 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].**

ADDRESSES: The public meeting will be held at the U.S. Department of Energy, Forrestal Building, Room 8E-089 1000 Independence Avenue, SW., Washington, DC 20585-0121. Please note that foreign nationals planning to participate in the public meeting are subject to advance security screening procedures. If a foreign national wishes to participate in the public meeting, please inform DOE of this fact as soon as possible by contacting Ms. Brenda Edwards at (202) 586-2945 so that the necessary procedures can be completed. Please note that any person wishing to bring a laptop computer into the Forrestal Building will be required to obtain a

property pass. Visitors should avoid bringing laptops, or allow an extra 45 minutes. As noted above, persons may also attend the public meeting via webinar.

Interested parties are encouraged to submit comments electronically by the following methods:

- Federal eRulemaking Portal: www.regulations.gov. Follow the instructions for submitting comments.
- E-mail to the following address: CIFB2013STD0006@ee.doe.gov . Include docket number EERE-2013-BT-STD-0006 and/or RIN 1904-AC55 in the subject line of the message. All comments should clearly identify the name, address, and, if appropriate, organization of the commenter. Submit electronic comments in WordPerfect, Microsoft Word, PDF, or ASCII file format, and avoid the use of special characters or any form of encryption.
- Postal Mail: Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, Framework Document for Commercial and Industrial Fans and Blowers, Docket No. EERE-2013-BT-STD-0006 and/or RIN 1904-AC55, 1000 Independence Avenue, SW., Washington, DC 20585-0121. If possible, please submit all items on a compact disc (CD), in which case it is not necessary to include printed copies. [Please note that comments sent by mail are often delayed and may be damaged by mail screening processes.]
- Hand Delivery/Courier: Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Program, Sixth Floor, 950 L'Enfant Plaza, SW., Washington, DC 20024. Telephone: (202) 586-2945. If possible, please submit all items on a CD, in which case it

is not necessary to include printed copies.

Instructions: All submissions received must include the agency name and docket number and/or RIN for this rulemaking. No telefacsimilies (faxes) will be accepted.

Docket: The docket is available for review at <http://www.regulations.gov>, and will include Federal Register notices, framework document, notice of proposed rulemaking, public meeting attendee lists and transcripts, comments, and other supporting documents/materials generated throughout the rulemaking process. The regulations.gov webpage contains instructions on how to access all documents, including public comments, in the docket. The docket can be accessed by searching for docket number EERE-2013-BT-STD-0006 on the regulations.gov website. All documents in the docket are listed in the www.regulations.gov index. However, not all documents listed in the index may be publicly available, such as information that is exempt from public disclosure.

For information on how to submit a comment, review other public comments and the docket, or participate in the public meeting, contact Ms. Brenda Edwards at (202) 586-2945 or by e-mail: Brenda.Edwards@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Charles Llenza, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Building Technologies, EE-2J, 1000 Independence Avenue, SW., Washington, DC 20585-0121. Telephone: (202) 586-2192. E-mail: CIFansBlowers@ee.doe.gov .

Ms. Elizabeth Kohl, U.S. Department of Energy, Office of the General Counsel, GC-71,
1000 Independence Avenue, SW., Washington, DC 20585-0121. Telephone: (202) 586-7796.
E-mail: Elizabeth.Kohl@hq.doe.gov.

For information on how to submit or review public comments and on how to participate
in the public meeting, contact Ms. Brenda Edwards, U.S. Department of Energy, Office of
Energy Efficiency and Renewable Energy, Building Technologies Program, EE-2J, 1000
Independence Avenue, SW., Washington, DC, 20585-0121. Telephone (202) 586-2945. E-mail:
Brenda.Edwards@ee.doe.gov.

SUPPLEMENTARY INFORMATION: Title III of the Energy Policy and Conservation Act of
1975 (EPCA), as amended (42 U.S.C. 6291 *et seq.*), sets forth various provisions designed to
improve energy efficiency. Part C of Title III of EPCA (42 U.S.C. 6311-6317), which was
redesignated for editorial reasons as Part A-1 upon codification in the U.S. Code, establishes the
"Energy Conservation Program for Certain Industrial Equipment," which covers certain
commercial and industrial equipment (hereafter referred to as "covered equipment").

EPCA specifies a list of equipment that constitutes covered commercial and industrial
equipment. (42 U.S.C. 6311(1)(A)-(L)). The list includes 11 types of equipment and a catch-all
provision for certain other types of industrial equipment classified as covered the Secretary of
Energy (Secretary). EPCA also specifies the types of equipment that can be classified as covered
in addition to the equipment enumerated in 42 U.S.C. 6311(1). This equipment includes fans
and blowers. (42 U.S.C. 6311(2)(B)) Industrial equipment must also be of a type that:

- (1) Consumes, or is designed to consume, energy in operation;
- (2) To any significant extent, is distributed in commerce for industrial or commercial use;
- (3) Is not a covered product as defined in 42 U.S.C. 6291(a)(2) of EPCA, other than a component of a covered product with respect to which there is in effect a determination under 42 U.S.C. 6312(c).

(42 U.S.C. 6311 (2)(A)).

To classify equipment as covered commercial or industrial equipment, the Secretary must determine that classifying the equipment as covered equipment is necessary for the purposes of Part A-1 of EPCA. The purpose of Part A-1 is to improve the efficiency of electric motors, pumps and certain other industrial equipment to conserve the energy resources of the nation. (42 U.S.C. 6312 (b))

DOE has proposed to determine that the commercial and industrial fans and blowers (which DOE considers to be a type of fan with a specific ratio between 1.11 and 1.20) are covered equipment (76 FR 37678 (June 28, 2011)). DOE has developed a Framework Document in further consideration of that determination and any associated energy conservation standards for fans. DOE may consider standby and off mode energy use for commercial and industrial fans as part of this rulemaking because many commercial and industrial fans do not operate continuously.

DOE has prepared the Framework Document to explain the relevant issues, analyses, and processes it anticipates using to determine whether to establish energy conservation standards, and, if so, for the development of such standards. The focus of the public meeting noted above will be to discuss the information presented and issues identified in the Framework Document. At the public meeting, DOE will make presentations and invite discussion on the rulemaking process as it applies to commercial and industrial fans. DOE will also solicit comments, data, and information from participants and other interested parties.

DOE is planning to conduct in-depth technical analyses in the following areas: (1) engineering, (2) energy-use characterization, (3) equipment price, (4) life-cycle cost and payback period, (5) national impacts, (6) manufacturer impacts, (7) utility impacts, (8) employment impacts, (9) emission impacts, and (10) regulatory impacts. DOE will also conduct several other analyses that support those previously listed, including the market and technology assessment, the screening analysis (which contributes to the engineering analysis), and the shipments analysis (which contributes to the national impact analysis).

DOE encourages those who wish to participate in the public meeting to obtain the Framework Document and to be prepared to discuss its contents. A copy of the Framework Document is available at:

http://www1.eere.energy.gov/buildings/appliance_standards/rulemaking.aspx/ruleid/25.

Public meeting participants need not limit their comments to the issues identified in the Framework Document. DOE is also interested in comments on other relevant issues that

participants believe would affect energy conservation standards for this equipment, applicable test procedures, or the preliminary determination on the scope of coverage. DOE invites all interested parties, whether or not they participate in the public meeting, to submit in writing by **[INSERT DATE 45 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**, comments and information on matters addressed in the Framework Document and on other matters relevant to DOE's consideration of coverage and standards for commercial and industrial fans.

The public meeting will be conducted in an informal, facilitated, conference style. There shall be no discussion of proprietary information, costs or prices, market shares, or other commercial matters regulated by U.S. antitrust laws. A court reporter will record the proceedings of the public meeting, after which a transcript will be placed on the DOE website at: http://www1.eere.energy.gov/buildings/appliance_standards/rulemaking.aspx/ruleid/25 and available for purchase from the court reporter.

After the public meeting and the close of the comment period on the Framework Document, DOE will collect additional data, conduct the analyses as discussed in the Framework Document and at the public meeting and review the public comments received.

DOE considers public participation to be a very important part of the process for determining whether to establish energy conservation standards and, if so, in setting those amended standards. DOE actively encourages the participation and interaction of the public during the comment period in each stage of the rulemaking process. Beginning with the Framework Document, and during each subsequent public meeting and comment period, interactions with and among members of the public provide a balanced discussion of the issues to assist DOE in the standards rulemaking process. Accordingly, anyone who wishes to participate in the public meeting, receive meeting materials, or be added to the DOE mailing list to receive future notices and information about this rulemaking should contact Ms. Brenda Edwards at (202) 586-2945, or via e-mail at Brenda.Edwards@ee.doe.gov.

Issued in Washington, DC, on January 28, 2013.

Kathleen B. Hogan
Deputy Assistant Secretary for Energy Efficiency
Energy Efficiency and Renewable Energy
