

## Building Technologies Program

# Scoping Workshop Public Meeting on Plans for Developing Energy Conservation Standards for Battery Chargers and External Power Supplies January 24, 2007 – Washington, DC

**Purpose:** The Department is holding this public meeting 1) to comply with the requirement of the Energy Policy Act of 2005 and 2) to obtain stakeholder input on the scope of coverage and preliminary analyses prepared for battery chargers and external power supplies. This meeting will provide stakeholders with an overview of the Statute, the timeline for completing the tasks listed in the Statute, and an explanation of those tasks. To that end, DOE will provide stakeholders with an overview of the approach and analytical tools that it proposes to use in its determination analysis for battery chargers and external power supplies. The meeting will solicit feedback on the assumptions, methodology and analytical tools.

- 9:00 - 9:05 am Welcome**
- 9:05 - 9:15 am Agenda review**
- 9:15 – 9:45 am Stakeholder opening statements**
- 9:45 – 10:15 am Introduction, Regulatory Process Overview**
- 10:15 – 11:00 am Determination Analysis Analytical Steps**
- 11:00 – 11:15 am Coffee Break**
- 11:15 – 11:30 am Energy Conservation Standards Analyses**
- 11:30-12:30 pm Scope of Coverage and Product Classes**
- 12:30 - 1:30 pm Break for Lunch**
- 1:30 - 2:20 pm Preliminary Market Assessment Discussion**
- 2:20 - 2:35 pm Coffee Break**
- 2:35 - 3:25 pm Preliminary Technology Assessment Discussion**
- 3:25 – 3:55 pm Opportunity for Stakeholder Comment**
- 3:55 - 4:00 pm Closing Remarks**
- 4:00 pm Adjourn**
