

Builders Challenge High-Performance Builder Case Study Application

Thank you for taking the Builders Challenge to provide America with more energy-efficient homes!

Builders like you are an inspiration to the industry, and we would like to share your achievements and motivate others to join the Builders Challenge.

Let us turn your story into a two-page case study that we will post on our Web site (www.buildingamerica.gov/challenge), and that you can use for your own marketing efforts. It's a great way to promote your company and to galvanize energy-efficient construction through the Builders Challenge.

To get started, please fill out the form below, providing a few facts about your company and your experience constructing Builders Challenge homes. Click "Submit" when you are finished and send any attachments to builderschallenge@newportpartnersllc.com (301-889-0017).

1. Builder Name and Location

Name:

City:

State:

2. Company Information

Provide three to five paragraphs about your company. Sample information includes specialty, general company facts, project(s) that meet Builders Challenge criteria, energy-efficient technologies and techniques, costs, awards, and/or awards for energy efficiency.

3. Quotations

In your own words, why is your company building energy-efficient homes? Why did you decide to join the Builders Challenge? How has energy-efficient construction affected your sales? How easy is this type of construction? Why should other builders follow suit? (Feel free to add quotes from your company's president, vice president, or other energy champion.)

4. Key Features of Your Company's Homes

Provide a complete list of energy efficiency features, such as HERS scores, HVAC, insulation levels, ventilation types, air sealing details, wall and roof materials, windows, appliances, lighting, and green features.

5. Builder Profile

Full name of business:

Company Web site:

Contact name:

Title:

Phone:

Email:

Year founded:

Number of employees:

Number of homes built since founding:

Number of homes built in 2008:

Number of units in featured development:

Price range:

Square footage:

Number of floors:

Number of bedrooms:

Number of bathrooms:

Energy efficiency commitment (all Builders Challenge, all Environments for Living Platinum, all ENERGY STAR, all solar or solar optional, etc.):

6. Photos

Send up to four high-resolution photos of completed homes, unique energy efficiency measures added during construction (framing details, spray foam insulation, foundation insulation, ducts in interior space, etc.), marketing displays, or schematics showing efficiency details. Send attachments to builderschallenge@newportpartnersllc.com.
