

It's the law  
of supply and demand:

**Lower Supply + Greater Demand =  
HIGHER PRICES**

**ACT NOW  
TO HELP LOWER  
THE HIGH COST OF ENERGY  
AT HOME AND AT WORK**

## **AT HOME**

*Make sure you:*

- 4 • Turn down your water heater to 120°F
- 4 • Insulate your water heater, pipes, and ducts
- 4 • Replace old appliances with new energy-efficient models
- 4 • Tune up your heating system
- 4 • Install a programmable thermostat
- 4 • Install extra insulation in attics, walls, and crawl spaces
- 4 • Upgrade leaky windows and seal drafty air leaks

## **AT WORK**

*Encourage Employees and Building Managers to:*

- 4 • Lower thermostats
- 4 • Shut off heat in unoccupied space
- 4 • Implement a seasonal dress code and wear warmer clothing to work
- 4 • Repair insulation and seal air and steam leaks
- 4 • Conduct boiler efficiency tests and inspect/replace steam traps
- 4 • Reduce water heater temperatures during off-peak periods

YOU HAVE  
the POWER™

U.S. Department of Energy  
**Energy Efficiency  
and Renewable Energy**  
Bringing you a prosperous future where energy  
is clean, abundant, reliable, and affordable
