

To Idle or Not to Idle: That Is the Question

Poster P-4
DEER Conference
Detroit, Michigan

September 27-30, 2010

Linda Gaines, Terry Levinson, and Steve McConnell
Center for Transportation Research
Argonne National Laboratory

Passenger car idling wastes about 3 billion gallons annually!

- Myths and misinformation permeate “expert” advice
- Argonne measurements will provide documented answers
 - Should I warm up my car?
 - Should I park or use the drive-through?
 - Should I shut off my engine while waiting for a train to pass?
- National campaign will offer information for the general public and fleets
 - Passenger cars
 - Commercial vehicles
 - Buses
 - Long-haul trucks
- More at P-4!
