

Automatic Commercial Ice Makers Preliminary Analysis Public Meeting

This page presents meeting materials and information on how to submit comments for the public meeting on energy conservation standards for automatic commercial ice makers.

The U.S. Department of Energy (DOE) is considering potential standards for automatic commercial ice makers that would achieve the maximum improvement in energy efficiency that is technologically feasible and economically justified, and would result in significant energy savings. The purpose of this meeting is to discuss and receive comments regarding the preliminary analysis conducted in support of energy conservation standards for automatic commercial ice makers.
