### LED Bulb Edges Below \$20

By LESLIE KAUFMAN

This week, Home Depot fired a new marketing salvo in what is expected to be a broader national effort to get home customers to adopt LED lighting.

The retail giant began selling some light bulbs in its highly [energy-efficient lineup](#) at a surprisingly affordable price of [just under \\$20 online](#). Bricks-and-mortar

August 25, 2010

### Home Depot's \$20 LED: Lights out for older bulbs?

Our initial take on the Cree CR6 LED downlight is that its promising performance in our early tests could make it a good option for homeowners. And while \$50 to \$60 apiece may not sound cheap, it's far less than what LED—short for light-emitting diode—versions of these recessed ceiling-light bulbs have sold for. Now Home Depot is selling an LED that equates to a 40-watt incandescent bulb and costs just \$19.97. That could mean LEDs begin replacing compact fluorescent (CFLs) and incandescent bulbs sooner than expected.

Consumer Reports testing has shown that CFL lights can last 10 times as long as incandescent bulbs and consume only one-quarter of the energy. But LED bulbs promise to last even

### Home Depot Selling Cheap LEDs Online

By Preston Koerner | August 12, 2010 | topics: Energy Efficiency, Green Tech

If you're looking to make the switch from incandescent to LED lighting, now may be a good time. The Home Depot struck a deal with the Lighting Science Group Corporation and is the exclusive seller of an affordable line of ECOSMART LED products. One bulb in the product line, the A19 LED 40-watt equivalent, sells

**MANUFACTURER'S CERTIFICATION STATEMENT**

**FOR THE AMERICAN REINVESTMENT & RECOVERY ACT OF 2009**

Owens Corning Insulating Systems, LLC certifies that the following Owens Corning insulation materials and systems are "Eligible Building Envelope Components" that qualify for the Federal Tax Credit for existing homes which is allowed under Section 1121 of the American Reinvestment & Recovery Act of 2009:

PINK FIBERGLAS <sup>™</sup> Thermal Insulation	FOAMULAR <sup>®</sup> Rigid Foam Insulation Products
FIBERGLAS <sup>™</sup> Loosefill Insulation	FIBERGLAS <sup>™</sup> Air Handling Products
Insulation Accessory Products	Basement Finishing System <sup>™</sup>
Window Products	Roofing Products

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct and complete.

Tom Quigley  
 Vice President & General Manager, Residential Insulation  
 Owens Corning Insulating Systems, LLC

### ENERGY EFFICIENT

The Home Depot offers an extensive selection of ENERGY STAR® qualified, solar, LED, and alternative energy products. These energy efficient products, such as compact fluorescent light bulbs (CFLs), use **significantly less energy** than conventional products. You can save money on your utility bills and help reduce greenhouse gas emissions.

[Learn More about ENERGY STAR®](#)

### Incandescent vs. ENERGY STAR® Compact Fluorescent Lightbulbs (CFLs)

Change a light, change the world!

#### Why Switch?

CFLs consume up to **75% less** energy and they last up to **10 times longer** than incandescent bulbs.

Incandescent bulbs operate at 350°F in order to produce light while CFLs operate at 90°F to produce light. The lower operating temperature of CFLs mean they are much more efficient than incandescent bulbs.

### Calculate Light Bulb Savings

Enter the number of incandescent bulbs you want to replace with CFLs and select "Calculate Savings"

## Your Water or Energy Conserving Purchase May Qualify for a Rebate

Your purchase from The Home Depot may qualify you to receive a rebate from your local service utility company. Rebate amounts and qualifications vary by utility company and not all products listed on the following pages may qualify for a rebate. These rebates are not redeemable from or through The Home Depot; please contact your local utility company for instructions on how to redeem rebates or your legal or financial advisor for more information.

# SUSTAINABILITY

- In 2010 the sales of The Home Depot Eco Options products saved our customers **\$800 million in utility cost.**
- In 2010 through the Eco Options water conservation product sales our customers saved over **8 billion gallons of water.**
- The Home Depot has recycled **710,000 pounds of CFL bulbs** for our customers
- The Home Depot has saved over **2.6 billion kilowatt hours** since 2004 from our energy reduction efforts. The 2.6 billion kilowatt savings is enough energy to power 203,000 U.S. homes for one year
- In 2010 The Home Depot pledged to **remove 20% of Green House Gas emissions** from its domestic Supply Chain by 2015. That is a 200 million mile reduction in distribution miles – or equivalent to 8000 trips around the earth.

# NEW Sustainability Brochure

**The Home Depot**

We are the world's largest home improvement specialty retailer with stores in all 50 states, the District of Columbia, Puerto Rico, U.S. Virgin Islands, 10 Canadian provinces, Mexico and China.
