

Welcome to FUPWG

Fall 2008

Robert S. Duvall
Vice-President & General Manager
Virginia & Maryland Operations

Overview

- **Natural Gas – Clean and Efficient**
- **Compressed Natural Gas (CNG) Vehicles**
- **Renewable Energy Opportunities**
- **VNG Conservation Programs**

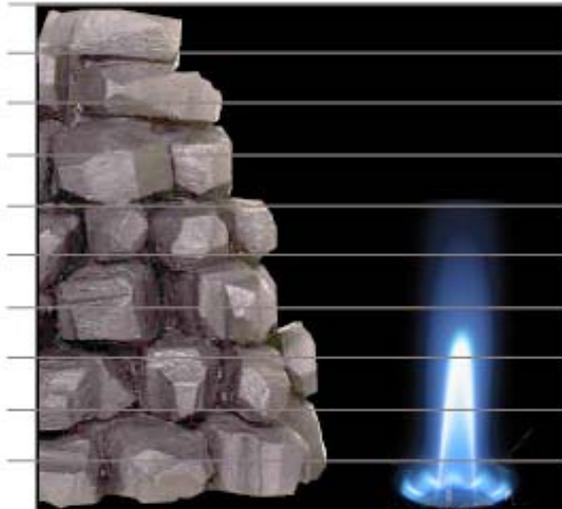

Virginia Natural Gas™

An AGL Resources Company

Natural Gas – Clean

Natural Gas Emissions:

- 45 percent less CO₂ emissions than coal
- 30 percent less CO₂ emissions than oil

Virginia Natural Gas™

An AGL Resources Company

Natural Gas – Efficient

Efficiency is paying off...

- Furnaces and boilers are up to 97% efficient
- 90% of the Natural Gas delivered directly to your home or business is useful energy
- Average American home uses 1/3 less natural gas than in 1980

We can do more...

- Council on Responsible Energy
 - Learn what's new...
 - Super boiler
 - Fleet applications
 - Tankless water heaters
 - and much more

Compressed Natural Gas (CNG)

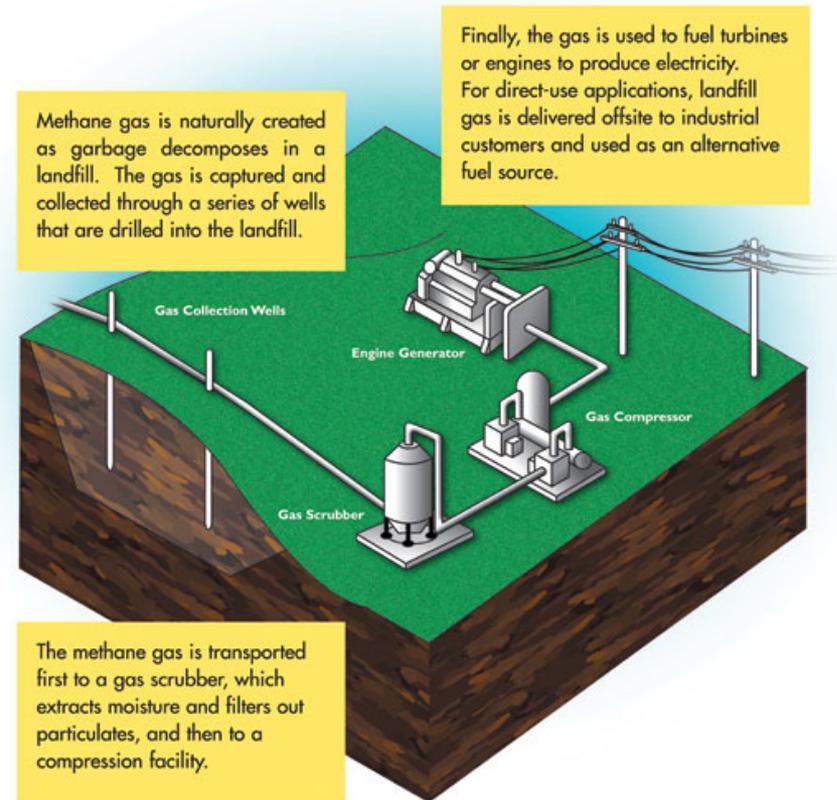

Compressed Natural Gas

- **Partnerships with Clean Cities and NGV America to assist customers in replacing existing fleet vehicles with natural gas vehicles.**
- **Colonial Williamsburg uses natural gas fueled buses.**

Renewable Energy

VNG and AGL Resources are exploring use of landfill gas to supplement natural gas system.

VNG Conservation Programs

- **CARE (Conservation and Ratemaking Efficiency) Act**
- **Online energy conservation and weatherization tips**
- **Energy assistance programs**
- **Areawide contracts throughout our utilities' service areas**

Summary

- **Natural Gas – Clean and Efficient**
- **Compressed Natural Gas (CNG) Vehicles**
- **Renewable Energy Opportunities**
- **VNG Conservation Programs**
