

NATIONAL GEOTHERMAL DATA SYSTEM

Stanford Geothermal Workshop 39th Annual Meeting
February 24–26, 2014 | McCaw Hall

What can NGDS do for you? Save time researching!

NGDS provides free access to geothermal information from all 50 states with continuous feeds of new data. Join the NGDS team for the following activities during the Stanford Geothermal Workshop:

Monday, February 24, 2014

- Opening Session Demonstration, “How to Use the National Geothermal Data System (NGDS) and NGDS Node Deployment,” David Cuyler, Arlene Anderson, Kim Patten, Christy Caudill-Daugherty
- Session 2(B): Cataloging Geothermal Data, Chair: David Cuyler

Monday through Wednesday, February 24–26, 2014—All Breaks, Plenary Room, McCaw Hall

- Live test-runs and demonstrations of the NGDS, Christy Caudill-Daugherty, Kim Patten
- Live demonstrations and Q&A with the Geothermal Data Repository, Jon Weers

Share your experience by stopping by the demonstration table during all workshop breaks in the plenary room, McCaw Hall
