

Florida Solar Energy Center

Jim Dunlop

Summary of International FSEC Activities

- Caribbean
 - Caribbean Hotel/Motel Association: ~20 in-country workshops (PV & SDHW)
 - Virgin Islands Energy Office:
 - Technical support training to \$500K in projects
 - WAPA interconnection technical support
 - PV water pumping technical support
 - Jamaica, Aruba, USVI installation training workshops
 - Dominica eco-tourism support
- Latin America
 - Mexico: Standards development assistance to SDHW manufacturers
- Asia
 - China: Technical and training assistance
 - Philippines: SDHW design and installation workshop
 - India: 6 2-week training programs in 1995-98
 - SELCO PV systems testing and monitoring

Summary of International FSEC Activities

- Africa
 - African Development Bank project evaluation support
 - HBCU Training support
- General
 - WHO/PAHO:
 - Support for PV medical clinic projects
 - Specification development for batteries and charge controllers in health clinics
 - World Bank PV quality training module development
 - Support for USAID for solar energy curriculums for Caribbean and Latin American universities
 - Standards
 - Hosted IEC TC-82 WG3 Small PV Standards Meeting
 - Supported development and validation of IEEE PAR 1526 for testing small PV systems

FSEC's Goal

To team with other partners to
achieve planned, consistent
outcomes in support of overall
program goals
